Profile:

My love for simplicity, attention to detail, and collaboration with others have helped me lead and shape the design vision for many companies. User Experience Design is what makes the world exciting to me.

In my 12+ years of design experience, I have designed personal projects about beer to enterprise-level responsive web and mobile strategies. I'm a firm advocate and practitioner of habit-forming design, Lean UX, Human-Centered Design, and Agile methodologies. You will find me tweeting and sharing about #designthinking, #craftbeer, and great experiences.

I create products for humans.

Employment history:

May 2021 - Present

100% remote

Director of Product Design

Charles River Laboratories, criver.com

At Charles River Laboratories, I lead the Apollo Product Design Team. I manage the teams through usability studies, accessible design patterns, common core design elements, and the management/creation of our design system for scalable enterprise software.

May 2021 - Present

Austin, TX

Founder/CEO

Thirsty Indeed, LLC

Thirsty Indeed is comprised of multiple websites and future concepts for the alcohol industry. FeedMeAlcohol.com, your top-shelf news for the alcohol industry—launched May 2022. NationofAlcohol.com, all things alcohol. All the time. The LinkedIn of the alcohol industry—launching the alpha version in May 2022.

Mar 2018 - May 2021

Austin, TX

Design Lead - B2B2C Software

Vrbo by Expedia Group, vrbo.com

End-to-end responsive web application product design. I led the design of Vrbo's enterprise-level Property Management software called Escapia.com. Through conducted usability studies, customer interviews, accessible design patterns, prototyping in Figma, contributions to Vrbo's design system, and working with an excellent team of engineers (45 worldwide), product managers (5 nationwide), 2 UX Designers, UX Content Strategist, and a UX Engineer locally.

Jacob McDaniel

Director of Product Design

Employment history (*continued*):

Apr 2010 - Present

100% remote

Chief Pixelator & CEO

&Pixels (digital agency), andpixels.com

As the CEO in a remote digital agency, focusing on high-quality UI, UX, WordPress, responsive web design, and development I oversee and collaborate with a 100% remote team of designers, developers, content writers, and clients from around the nation in the design, testing, development, and launch of digital products and websites. I manage all aspects of design, project management, budgets (\$5k - \$500k+), sales, marketing, and new business acquisition to effectively propel business revenues and clientele. We have designed and built 200+ WordPress websites varying from brochureware to e-commerce.

Apr 2010 - Apr 2021

100% remote

Co-founder & Lead Product Designer

PourMeABeer, pourmeabeer.com

Provides end-to-end product strategy, user testing, design, marketing, and management of the brand, team, and future of beer-finding. Works with the engineering team to prioritize product features for the launch of MVP for mobile apps built in React Native. Continuing research and development on product features and strategy for our web app for businesses.
